On-Line Government Contracting Training June 2020

How it works

Just like a class you'd attend in person, courses are taught by a live instructor on a scheduled day and time. The Web-enabled Instructor-Led training experience has much in common with the classroom equivalent. Students:

- Receive course materials in advance
- Participate in real time using a broadband connection
- Interact directly with the instructor and their peers

From your computer, you'll link to an instructor in a live, real-time, interactive learning experience. You'll become part of a virtual classroom where you can ask questions, seek guidance and participate in class discussions and interactive exercises.
